

## Special Issue of Affective Science and Engineering: Call for Extended Papers of ISASE 2023

---

Special Issue of Affective Science and Engineering: Call for Extended Papers of ISASE 2023 (9th International Symposium on Affective Science and Engineering).

A forthcoming volume of International Journal of Affective Engineering (IJAE) will be published as a Special Issue of Affective Science and Engineering. The objective of this Special Issue is to discuss new theories and applications related to “Affective Science and Engineering” fields.

This Special Issue solicits extended paper submission from people who presented their original works in the ISASE 2023 on March 8th, 2023 and have been nominated for publication in International Journal of Affective Engineering (IJAE), indexed in ESCI, published by Japan Society of Kansei Engineering (JSKE). If you wish to publish a paper as an original article, with improvements and corrections made in response to feedback from the conference, please apply with the revised paper and follow the submission instructions below. All submissions will be sent to undergo general reviewing processes of IJAE prior to publishing.

Authors are asked to submit a manuscript containing 6 to 12 printed pages as a Portable Document Format (PDF) file. All manuscripts should be prepared in accordance with the JSKE’s Rules for Publication. For more information regarding the submission, please refer to the website below:

JSKE publication information: <https://www.jske.org/publication/?lang=english>

IJAE submission guidelines: <https://www.jske.org/ijae/>

**Note: The IJAE submission guidelines have been renewed. Please make sure that you have checked it before submitting.**

For paper submission, we request that authors provide a cover page that describes:

- (1) Paper title and corresponding author’s name, affiliation, and contact information with e-mail address
- (2) Abstract of the paper,
- (3) Details of any consent and/or ethics approvals,
- (4) Description outlining the difference between the paper submitted for this Special Issue and the existing published paper on ISASE 2023 (which will appear on J-Stage).

Furthermore, in the submitted paper, authors should:

- (1) Provide a title different to that of the published paper on ISASE 2023,
- (2) Make certain contents of your paper differ from the published paper by at least 40%,
- (3) Cite the already presented/published paper on ISASE 2023.

Deadline for paper submission: June 30th, 2023.

Manuscript Template:

[https://www.jske.org/ijae/IJAE\\_GuideForAuthors-ManuscriptTemplate\\_230410.docx](https://www.jske.org/ijae/IJAE_GuideForAuthors-ManuscriptTemplate_230410.docx)

Page Fees: <https://www.jske.org/ijae/about.html>

For papers submission, use our reviewing system - the editorial manager (EM) - by logging in here:

<https://www.editorialmanager.com/keij/default2.aspx>

Using this system, you may also check the progress of your paper review: Enter into EM, choose “Original Article” in Article Type, then “Special Issue on ISASE” in Select Section/Category, where you will be able to upload your paper. The paper format for submission is limited to PDF.

If you have any questions, please don't hesitate to contact us.

Masayuki Takatera

Chair of ISASE
